WISCONSIN'S PREMIERE BIOHEALTH SUMMIT:

As medicine and technology continue to converge, the future of healthcare solutions is on the horizon presenting new opportunities, challenges, and shifts in today's healthcare industry. BioForward hosts Wisconsin's largest biohealth conference with over 400 attendees, featuring keynote presentations and panel sessions highlighting emerging trends in this new era of healthcare solutions and brings together industry and academic experts with insight into these trends.

SUMMIT HIGHLIGHTS:

- 400+ Attendees from across the biohealth industry including the biotech, medical device, health tech, healthcare, and genomics sectors
- Exploring the future of healthcare solutions from fundamental research to life-changing technologies
- Awards presentation during lunch, with table arrangements for speaker-to-speaker and Wisconsin executive networking
- Full-day event built around facilitating collaboration and business development opportunities including dedicated networking time, professional development workshops, and more
- Past speakers include representatives from Samsung Healthcare, Foxconn Medical, Accenture, GE Healthcare, Illumina, Abbott, and many more
